Find your joy.

From early morning sunrises to stargazing on a warm summer night, your outdoor living space is where the world slows down and simple moments become treasured memories. Whether relaxing alone, gathering with family or celebrating with friends, an inspired, multi-functional outdoor space acts as an extension of your home, allowing you to reconnect with nature while experiencing the comfort of the indoors.

We're passionate about helping you create a meaningful outdoor living space – one that combines beautiful details with sustainable design. When you choose Fiberon, you're choosing beautiful outdoor living built for life.

Why choose Fiberon?

Helpful, credible experts.

Whether it's finding the perfect board color, designing a deck layout or providing tips on selecting a contractor, Fiberon is here to help. We offer straightforward information and honest advice so you can make the best decisions for your unique space.

Local roots, global reach.

Fiberon® products are made in both our home state of North Carolina and in Idaho. From these two locations, we distribute throughout North America and to more than 40 countries in Europe, Asia, Africa, Oceania, and Central and South America.

Longer lifespan, lower cost of ownership.

From replacing splintered boards to reapplying stain or paint, the average pressure-treated deck needs a lot of maintenance. Those supplies can add up to hundreds of dollars each year, not to mention the time spent refinishing and repairing old boards. A Fiberon composite deck? Simply clean with soap and water or a mild cleaner for a high-end look that lasts.

Safe for the environment.

Our composites are manufactured using sustainable processes.

And, unlike wood, they prevent further deforestation.

Visit fiberonbalance.com to learn more.

An unlikely match.

You're usually asked to choose between wood or plastic. Natural or synthetic. Paper or plastic. Our sustainability story starts with this unlikely match — all the best qualities of recycled wood, combined with the long-lasting resilience of recycled plastic. The blending of these two materials is the reason why our products last, and why they're sustainable from start to finish.

Minimum 94% recycled material.*

Time is one of your most valuable resources and Fiberon® composite decking is nearly maintenance-free. Unlike a Fiberon composite deck, a wood deck starts with chemicals used to pressure treat the lumber and needs to be refinished with more chemicals every year or two. That's a lot of energy (mostly yours). Instead of staining and sealing, we think the most truly sustainable story is one that ends with you, spending time with your family, on your beautiful new Fiberon composite deck.

Learn more at fiberonbalance.com.

*PE composite decking only.

The science behind sustainable outdoor living.

Trees are beautiful. About half of what's in our decking comes from recycled wood — sawdust and leftover material that would otherwise be discarded.

- The average wood deck uses about 11 trees (500 sq. ft. deck).
- The choice to use recycled wood versus new wood in our deck boards avoids the destruction of up to one million trees or more. That's equal to 15,000 football fields worth of healthy forest.

Plastic lasts a lifetime... or ten. The other half of the core of our deck boards comes from recycled plastic. Think grocery bags and recycled packaging material.

- Fiberon incorporates the equivalent of 2,000 plastic bags into each board.
- Each year, Fiberon averages 100 million pounds of recycled plastic put to good use.

Resourceful to the last drop. Manufacturing composite decking requires a constant source of water. The good news? We reuse almost all of it with our closed-loop system.

- Fiberon's closed-loop water system pumps over 3.5 billion gallons of water each year.
- Fiberon recycles the equivalent of 5,300 Olympic-size swimming pools annually.

Don't waste a thing. We reuse 98.5% of the waste from our manufacturing process — from misfit boards to router clippings. Every day.

Through Fortune Brands Home & Security, we're partnering with the National Forest Foundation in their effort to plant 50 million trees.

Decking

Make every weekend count.

At Fiberon we believe that decks are meant to be enjoyed, not maintained. Our composite PE and PVC decking won't warp, rot or splinter, so the look you love today will be there tomorrow. Wood decking simply can't compare.

Promenade PVC decking in Russet Dune.

The art of outdoor living.

Evoke the feeling of luxurious living with Promenade PVC decking. Promenade offers the aesthetic of high-end, handcrafted wood decking, with the benefits of premium PVC.

- Boards feature four-sided capping, streaking on the unembossed underside and a next-generation surface coating for superior weather resistance and durability.
- Promenade deck boards feature enhanced slip resistance*, making it an ideal choice for waterside applications.
- Synthetic solid core construction provides protection from cracks, splinters and mold.
- The lightweight, easy-to-handle boards float, making them easy to install in or under water.
- When tested, Fiberon PVC deck boards displayed high performance in resisting mold, water absorption and discoloration.
- Boards won't warp or swell when submerged in water, even after being cut.
- Tested for use around fresh water, salt water and chlorinated water environments, and suitable for use in installations that may be temporarily submerged in water, like dock and pool stairs.
- Approved for use in all Wildland Urban Interface (WUI) zones.

Testing method and performance:

- ASTM E84 Class A, FSI 15.
- CA SMF 12-7A-4, BML 8110-2045:0503.
- Approved for use in San Diego County.

Square Edge = 1.05 in. x 5.5 in.
Length: 16 ft. and 20 ft.**

Grooved Edge = 1.05 in. x 5.5 in.
Lengths: 12 ft., 16 ft. and 20 ft.

Fascia: .50 in. x 11.75 in. x 12 ft.

*Based on comparative results from independent testing to ASTM F1679.

**Available for Special Order in 12 ft.

Note: Matching fascia available in all colors. PVC boards should be removed from water sources where a freeze / thaw cycle may occur. See your Fiberon seller or visit www.fiberondecking.com for details on limited warranties and exclusions.

Timeless style, unmatched versatility.

Concordia premium PE composite decking now includes three distinct collections – Symmetry, Horizon and Astir – combining classic and on-trend colors and grain patterns with unbeatable performance.

New! The Astir Collection features a rustic cathedral grain and three fresh, nature-inspired multi-tonal hues influenced by the harmony of nature’s landscapes.

The Symmetry Collection features a low-gloss formula and micro-texturing, creating a wire-brushed finish.

The Horizon Collection includes a sweeping cathedral grain with dramatic streaking that emulates exotic hardwoods.

- Durable composite core helps resist splintering, rotting, cracking, insects and decay.
- Four-sided PermaTech® cap layer provides superior protection and fade resistance.
- Premium PE composite deck boards include 94% recycled material.
- The flat-profile bottom provides a sturdy feel, reminiscent of traditional lumber.
- Finished surface on top and bottom is ideal for second-story decks.
- Reversible boards reduce waste and save time and money.

Square Edge = .92 in. x 5.4 in.
Lengths: 12 ft., 16 ft. and 20 ft.

Fascia: .75 in. x 11.25 in. x 12 ft.

Grooved Edge = .92 in. x 5.4 in.
Lengths: 12 ft., 16 ft. and 20 ft.

Riser Board: .75 in. x 7.25 in. x 12 ft.

Note: Matching fascia and risers available in all colors. See your Fiberon seller or visit www.fiberondecking.com for details on limited warranties and exclusions.

Color

Make a statement.

Picture your perfect outdoor living space. Is it a serene retreat, designed for relaxing at the end of a long day? Or is it sleek and stylish, ideal for elegant outdoor dinner parties?

The board color you select will influence the look and feel of your outdoor space, from subtle, subdued shades that blend with your surroundings to bold, modern hues that provide show-stopping contrast. Each Fiberon® decking collection comes in a variety of nature-inspired, on-trend colors featuring realistic grain patterns.

For a casual, laidback look, choose cool-toned browns like Bungalow, Sandstone and Clay. If you're looking for something more modern, consider mid-tone finishes like Natural Reef, Latte and Espresso. Classic finishes such as Sandy Pier, Weathered Cliff and Moonlit Cove provide a traditional aesthetic.

Mix and match colors within your selected decking collection to create a unique, two-toned look with depth and personality.

Golden Browns

Warm and natural, these shades complement any architecture.

Grays

The perfect choice for coastal homes, gray evokes thoughts of rocky shorelines and weathered wood.

Classic Browns

Choose a classic shade of brown to add depth and drama to your space.

Note: These samples show a portion of the colors in a board. Actual board colors may vary from the samples and photography.

Cladding

Wildwood™ Composite Cladding

The beauty of wood meets advanced composite technology.

Bring your designs to life—all while protecting the planet.

- Offers a long-lasting, low-maintenance, more sustainable alternative to traditional wood cladding.
- Available in a variety of board lengths and widths for more design solutions. Longer lengths result in fewer seams and the open-joint profile utilizes a concealed face fastener, creating a cleaner aesthetic.
- Mix and match board lengths and colors, or use horizontal and vertical configurations to create a unique, custom look for each project.
- Priced competitively to wood and costs less than most rainforest wood cladding or engineered cladding products.
- The durable composite core ensures exceptional resistance to rotting, cracking, insects and decay.

The Eden Collection

is inspired by lush, tropical forests and features an array of exotic hues.

The Sahara Collection

draws inspiration from arid, sandy landscapes and includes rich desert tones.

Deck Fasteners

Engineered for optimal performance and universal adaptability to any Fibron® deck, these fasteners are designed to enhance the overall finish of your deck project while offering flexibility to suit a varied range of uses and applications.

Hidden Grooved Fastener Systems

This popular choice offers versatile solutions for grooved deck boards to create a smooth, flawless surface.

Face-Fastening Systems

Our most budget-friendly option – designed for efficiency by combining the simplicity of Fibron square-edge boards with standard or color-matched face-fastening applications.

How They Work

Hidden clips ensure a smooth surface and more seamless transition from indoor to outdoor spaces.

Install decking in half the time with award-winning EDGE and EDGEX Clips. EDGE Clips are for 90-degree deck patterns. EDGEX Clips are for any deck pattern. They are pre-assembled, one-pass fasteners with no partial installation required.

For the Phantom universal fastener, the clip is installed into the groove. Then, a screw is driven straight down into the joist (90-degree angle).

Fiberon creates products for the consumer who wants to install a beautiful deck and have the best experience possible. We value trusted products that are easy to use and help build a perfect deck every time. Our hidden grooved fastener options provide versatile solutions for grooved-edge deck boards to create a smooth, flawless surface.

Fiberon® EDGE®, EDGEX® and EDGEXMETAL® Clips

- Install decking in half the time with award-winning Fiberon EDGE and EDGEX Clips.
- Fiberon EDGE and EDGEX Clips are designed for use on all grooved-edge decking, including PE and PVC.
- Fiberon EDGE Clips are for 90-degree deck patterns.
- Fiberon EDGEX Clips are for any deck pattern.
- Pre-assembled, one-pass fasteners do not require partial installation and are easier to install with the included NEVER-MISS™ Guide.
- Clip creates 3/16 in. spacing.
- Gusset holds the board down, is up to 88% stronger than competitor's clips in lateral movement tests, and up to 50% stronger than competitor's clips in uplift holding power tests.*
- Fiberon EDGEXMETAL Clips are available with a #7 x 2 in. 410 stainless steel screw with drill point, #2 tip for 14-18 gauge (1.21-1.91 mm) metal framing.

Fiberon® STARTER Clip

- Achieve a fastener-free deck surface on any grooved-edge board.
- Versatile clip is easy to install and can also be used as an L-Bracket.

Fiberon® Phantom® Universal Hidden Fastener for PE Decking

- Easy to install, helps minimize lateral board movement and works with most leading grooved composite decking brands.
- Black HDPE fastener with pre-inserted screw practically disappears between deck boards.
- Carbon steel-coated screw helps prevent rust and corrosion.
- Pre-inserted screw enables easy one-touch installation.
- Self-gapping design ensures consistent 3/16 in. spacing between every board.

How They Work

Color-matched plugs and screws camouflage screw heads across the deck surface, stairs and perimeter boards.

The PRO PLUG® SYSTEM is a superior and easy-to-install plug fastening system for PVC / composite decking and PVC trim. Drill and set each screw, then tap in the color-matched plug with a hammer for a smooth finish.

Color-matched screws are designed to provide a clean, smooth, and uniform finish in composite and PVC decking and fascia. Choose from a variety of curated colors to match Fiberon decking or fascia.

Hidden Plug Systems

Starborn® PRO PLUG® SYSTEM Deck

- Package includes PVC / Composite Tool, screws, and plugs.
- Plugs are made from Fiberon® deck material for a perfect match.
- PVC / Composite Tool features Auto-Stop™ clutch mechanism.

Starborn PRO PLUG SYSTEM Fascia

Consists of two components: Fascia Plug Tool Set / Fascia Plug and Screw Kit.

- Fascia Plug Tool Set features Auto-Stop™ bit for setting ideal screw depth and creates perfectly-sized holes for boards to expand and contract freely.
- Plugs are made from composite deck fascia material for a perfect match.
- Can be used with composite risers.
- Fascia Plug Tool Set sold separately.
- Not available for PVC Fascia systems.

Color-Matched Screws

Cap-Tor® xd Color-Matched Screws

- Cap-Tor xd screws are color matched to Fiberon decking.
- Available for PE and PVC deck boards.
- Epoxy-coated carbon steel (T-20 Star bit included).
- 305 Grade Stainless Steel version also available (T-20 Star bit included).
- Use with Smart-Bit® Depth Setter for perfect depth setting every time (Part #: SCREW CTBRD BIT sold separately).

Starborn Fascia System

- Pre-drilling and countersinking Fascia Tool with patented Smart-Bit technology. Sold separately. (Part #: SCREW CTFS BIT)
- Designed to handle expansion and contraction that can occur with deck fascia boards.
- Screws are color matched to Fiberon fascia.
- Epoxy-coated carbon steel screws (T-20 Star bit included).
- Also for use on riser boards.

CAMO® DRIVE™

Install grooved- and square-edge decking with clip, face and edge fasteners up to five times faster with the cordless stand-up deck fastening tool that attaches to your drill.

- Installs Fiberon EDGE and Fiberon EDGEX Clips.
- Stand-up tool allows for a faster installation that's easier on your body than other methods.
- Tool is easy to use – adjustable handle, quick-change button to swap out included fastening guides, simple to load the bit and attach to your drill.
- Also fastens CAMO collated EDGE Deck Screws and CAMO Collated Face Screws (available through CAMO).
- Replacement T-15 Drive™ bits are available.

*Fasten clips with DRIVE to install up to five times faster.

CAMO® ClipDRIVE™

Install grooved decking exclusively with Fiberon® EDGE®, EDGEX® or EDGEXMETAL® clip fasteners from a standing position with this drill attachment.

- Ergonomic tool features a height-adjustable handle, making it the perfect fit for any installer.
- Weighted nose easily targets the screw head, speeding up your jobs.
- Non-marring nose tip prevents scuffs and rings.
- Contractor-grade tool is heavy-duty yet lightweight and quick to assemble.
- Replacement T-15 Drive™ bits are available.

CAMO® LEVER®

Straightens and locks in deck boards.

- Speeds up grooved deck installs – locks in rows of boards and clips before fastening.
- Strong enough to straighten warped boards.
- Adjusts to wood and metal joists 1-½ – 3 in. wide for jobsite versatility.
- Multi-directional lever locks in one turn.
- Use two, three or four LEVERS along the length of the deck for the best clip installation experience with consistent board spacing.

CAMO® DRIVE™, ClipDRIVE™ & LEVER®

- One-year warranty through CAMO.
- Sold through Fiberon distribution partners.

Railing

Change your outlook.

Discover beautiful, durable railing options to complete your outdoor living space. Fiberon® railing is available in a variety of styles and colors that can be paired with any of our decking options to create a custom look for your home.

CountrySide

CitySide

Brio

Strong is stylish.

From its understated satin finish to its clever sub-rail reinforcement, CountrySide railing is the ideal balance of beauty and strength. The sculpted top rail imparts a touch of sophistication. Three color choices and two baluster infill options create multiple designs. The smart composite construction and protective bonded cap layer were engineered for performance and longevity.

- Refined satin finish adds elegance.
- Composite construction ensures lasting durability.
- Reinforced top rail provides a strong, sturdy feel.
- Hidden hardware gives a clean look.
- Compatible with ADA handrail system, available via special order.
- Create a line or stair section with any kit.
 - Kits available in
 - 36 and 42 in. heights.
 - 6 and 8 ft. lengths.
 - Line / Stair sections with square beveled composite balusters.
 - Line sections with round black aluminum balusters.
 - Stair sections with round black aluminum balusters.

These kits include top and bottom rails, sub-rails, balusters, crush blocks with holders, and mounting hardware.

Alpine
(Tranquil White)

Simply Brown

Obsidian
(Serene Black)

Top Rail
3 in. x 3 in.

Bottom Rail
2.5 in. x 2 in.

Maximize your view.

The sleek, minimalist design of CitySide railing maximizes the view beyond your deck or porch, while the durable, long-lasting aluminum construction minimizes maintenance time and expense. Engineered with a pre-punched bottom rail for ease of install, this lightweight railing solution delivers on reliability, beauty and performance.

- Clean lines and contemporary styling work with any architecture.
- Low-maintenance performance material reduces upkeep time and expense.
- Pre-punched bottom rail enables faster baluster installation.
- Premium powder-coated aluminum resists rust.
- No exposed welds or cuts help prevent injuries.
- End, line and corner posts feature integral bracketing, providing a clean appearance and reducing installation time.
- Stair brackets are available for stair and angle installations with stair posts or Fiberon® composite posts.*
- Line or Stair Kits
 - Line Kits
 - 36 in. height available in 6 and 8 ft. lengths.
 - 42 in. height available in 6 and 8 ft. lengths.
 - Stair Kits
 - 36 in. height available in 6 and 8 ft. lengths.
 - 42 in. height available in 6 ft. length only.
- Posts (All come with cap and bottom trim.)
 - Line posts with attached welded brackets.
 - End, line, corner
 - Stair post without brackets (Stair / multi-angle bracket sold separately).

Lighting

More time to make memories.

Fiberon® lighting, featuring smart technology, enables you to create the complete backyard experience – one that you can enjoy well past sundown. Whether you are entertaining friends or enjoying some downtime, our warm-toned LED lights provide a welcoming ambience and increase the safety of your deck and stairs. Our smart home adapter* allows you to manage your lighting using your smartphone, Amazon Alexa or Google Home device, from the comfort of your favorite deck chair. The USB outlet integrates seamlessly into our railing, providing you with easy access to an outdoor power source.

*Smart home adapter must be plugged in indoors.

When it comes to creating your ultimate outdoor space, little details make a big difference.

Flush Deck Light with Removable Trim Ring

CitySide Side Light

Stair Riser Post Light

Recessed Riser Light

Smart Home Adapter*

Outdoor USB Port*

Our innovative smart home adapter allows you to manage your lights from anywhere using your smartphone.

Features seamless integration with your Amazon Alexa or Google Home compatible device. Turn your lights on and off or dim your lights through voice command on a smart home device. No smart home hub? No problem. The smart home adapter works just as well on its own, when connected to WiFi.

*Smart Home Adapter and Outdoor USB Port backed by a one-year warranty. Note: Except where indicated, lights available in Alpine, Simply Brown and Obsidian. See your Fiberon seller or visit www.fiberondecking.com for details on limited warranties and exclusions.

Resources

How to kick-start your decking plans.

Our online tools provide the guidance you need to start creating your perfect outdoor living space.

Visit fiberondecking.com/design-tools to get started.

Online Tools

Your ultimate outdoor space begins here.

Find inspiration on fiberondecking.com.

On our website you'll find three galleries meant to inspire your next project. Our Inspiration Gallery features user-generated content from a variety of social media channels. The Product Gallery highlights completed projects and deck board images, providing a closer look at our board colors and grain patterns.

Bring your deck design to life.

Fiberon® Discovery Deck Design Tools take the guesswork out of planning your outdoor living space project and provide you with the resources you need to navigate your deck design journey – from start to finish.

Deck Designer

Design a deck from scratch or choose from our pre-set deck shapes. Then, customize it to fit your home's style.

Inspiration

Browse our gallery of beautiful Fiberon decks to find inspiration.

Deck Visualizer

Our augmented reality app allows you to place decking within your space to quickly discover Fiberon possibilities on any surface. Take photos of different angles of your deck area and our tool will stitch the images together, allowing you to rotate and see multiple views of your deck.

Visit fiberondecking.com/design-tools to learn more.

It's time to build. We can help.

Our Find a Builder tool lists local, qualified Fiberon deck builders who can answer questions, provide project advice and quote the job. Or, use the Where to Buy feature to find local Fiberon dealers as well as lumberyards and home centers that carry our products.
